

SUPERCIM

MEGA STRUCTURE
PORTLAND COMPOSITE CEMENT

- ◆ STRONG
- ◆ RELIABLE
- ◆ LONG LASTING
- ◆ LESS WATER NEEDED

FROM

DUBAÏ
Bangladesh Cement Mills Ltd.

Supercim Mega Structure is a premium portland composite cement engineered to deliver exceptional performance for your most demanding construction projects. This high-strength, high-durability cement surpasses the requirements of BDS EN 197-1:2010 CEM II / B-M (S-V-L), 42.5 N, providing you with the confidence to construct long-lasting structures.

Benefits:

Exceptional Strength: Exceeds the requirements of BDS EN 197-1:2010 CEM II / B-M (S-V-L), 42.5 N for a strong and secure foundation.

Superior Durability: Built to withstand the elements and ensure the longevity of your project.

Enhanced Workability: Improved workability for easier placement and finishing, saving you time and effort.

Reliable Performance: Consistent quality you can trust for all your construction needs.
